DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of species IV in Paper No. 11 is acknowledged. The traversal is on the ground(s) that the search can be made without a serious burden. This is not found persuasive because to overcome the election requirement applicant was to traverse the species are not patentably distinct not whether it is a serious burden.

Claims 2,6,8,11 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim.

Claims 3-4 have been withdrawn since they depend on a withdrawn claim.

With respect to the single species of figs. 4-7, The Examiner duly noted this.

With respect to the generic claims, it is in agreement that 1,10,13 are generic to species I and IV. Upon allowance of a generic claim, applicant will be entitled to consideration of claims which are written in dependent form or otherwise include all the limitations of an allowed generic claim.

An action on the merits now follows.

Specification

Content of Specification

Applicant is requested to having titles such as Background of the Invention, Brief Summary of the Invention, Brief Description of the Several Views of the Drawing(s), and Detailed Description of the Invention in the specification.

Claim Objections

Claims 1,5-7,9-10,12-13 are objected to because of the following informalities:

Applicant is suggested to remove the multiple reference numeral in the claims.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1,5-7,9-10,12-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "said means" in line 28. There is insufficient antecedent basis for this limitation in the claim. It is unclear which means applicant is intending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,5,13 are rejected under 35 U.S.C. 102(b) as being anticipated by Poirier (U.S. Patent No. EP 0405039).

See figs. 1-3.

Allowable Subject Matter

Claims 6-7,9-10,12-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
